ANNUAL INDEX

VOLUME 40

1963

AUTHORS

A

Abend, P. G. See Linfield, W. M.

Ackman, R. G. An analysis of separation factors applicable in the gas-liquid chromatography of unsaturated fatty acid methyl esters on a polyester substrate, 564

—— Structural correlation of unsaturated fatty acid esters through graphical comparison of gas-liquid chromatographic retention times on a polyester substrate, 558

Ackman, R. G. and Jangaard, P. M. Identification of the major polyunsaturated C^{18} acids of marine oils by GLC separation factors on normal and organosilicone polyesters, 744

Alfin-Slater, Roslyn, B. See Coleman, R. D.
—— See Kaneda, T.

Anders, D. E. See Pryde, E. H.

Anderson, C. A., and Wood, G. F. Bleaching of wool grease, 333
—— and Wood, G. F. Letter to the editor re lanolin nee woolgrease, 301

Anderson, R. H., Huntley, T. E., Schwecke, W. M., and Nelson, J. H. Disappearance of BHA and BHT in relation to peroxide content in breakfast cereals, 349

Andrews, E. L. See Bieri, J. G.

Applewhite, T. H., Nelson, Jane S., and Goldblatt, L. A. Castor-based derivatives: Synthesis of some amides, 101

Arnold, L. K., Choudhury, R. B. R., and Guzman, Alberto. Solubilities of five triglycerides in aqueous ethanol, 33
—— and Milloy, A. D. Distribution of individual fatty acids in the crystallization fractions of lard, 296

Atwood, M. T. The chemistry of "Alfol" alcohols, 64

Ault, W. C. See Eisner, Abner
—— See Maerker, G.
—— See Scholnick, F.

B

Bailey, A. V., Magne, F. C., Boudreaux, G. J., and Skau, E. L. Reaction of cyclopropenoid fatty acid derivatives with hydrogen halides, 69

Ballestra, Mario. See Silvis, S. J.

Barford, R. A., Herb, S. F., Luddy, F. E., Magidman, Paul, and Riemenschneider, R. M. Alcoholysis of *Vernonia anthelmintica* seed oil and isolation of methyl epoxyoleate, 136
—— See Herb, S. F.

Barlow, D. O. See Hoh, G. L. K.

Barrett, C. B., Dallas, M. S. J., and Padley, F. B. The quantitative analysis of triglyceride mixtures by thin layer chromatography on silica impregnated with silver nitrate, 580

Beal, R. E. See Eisenhauer, R. A.
—— See Sohns, V. E.

Beck, E. C., Wilson, K. J., and Jungermann, Eric. The determination of sodium, potassium, and magnesium in surfactants by flame spectrophotometry, 515

Bell, E. W. See Friedrich, J. P.

Beveridge, J. M. R. See Kuksis, A.

Beyer, E. A. See Schick, M. J.

Bhalerao, V. R. See Sahasrabudhe, M. R.

Bieri, J. G., and Andrews, E. L. Metabolic effects of selenium as related to vitamin E, 365

Bistline, R. G., Jr. See Weil, J. K.

Black, B. C., and Hammond, E. G. The separation of glycerides by liquid-liquid column partition chromatography, 575

Black, L. T., and Eisenhauer, R. A. Determination of cyclic fatty acids by gas liquid chromatography, 272

Blank, M. L. See Privett, O. S.

Blum, W. P. See Kuhrt, N. H.

Booth, A. N., and Gros, A. T. Caloric availability and digestibility of new-type fats, 551

Borstlap, C., and Kooijman, P. L. A study of the biodegradation of anionic synthetic detergents: A new laboratory test, 78

Boudreaux, G. J. See Bailey, A. V.

Bourne, M. C., and Jennings, W. G. Kinetic studies of detergency. I. Analysis of cleaning curves, 517
—— and Jennings, W. G. Kinetic studies on detergency. II. Effect of age, temperature, and cleaning time on rates of soil removal, 523
—— and Jennings, W. G. Letter to the editor re the definition of the word "Detergent," 212

Brand, B. G. See Dent, R. H.

Brandner, J. D. See Stockberger, G. J.

Brown, B. C. See Jungerman, Eric

Broxholm, R. A. See Kuhrt, N. H.

Bruun, J. H., and Matchett, J. R. Letter to the editor re utilization potential of *crambe abyssinica*, 142
—— and Matchett, J. R. Utilization potential of *crambe abyssinica*, 1

C

Carel, A. B. See Eatzkorn, E. A.

Carroll, K. K. Acid-treated florisil of an adsorbent for column chromatography, 413

Chadwick, A. F. See Hoh, G. L. K.

Chang, S. S., Masuda, Y., Mookherjee, B. D., and Silveira, A., Jr. Chemical reactions involved in the catalytic hydrogenation of oils. I. Characteristics of the volatile by-products, 721
—— See Mookherjee, B. D.

Choudhury, R. B. R. See Arnold, L. K.
—— See Reiser, Raymond

Cohn, M. M. The nation's water pollution problem—Detergent's role in it, 645

Coleman, M. H. The pancreatic hydrolysis of natural fats. III. The influence of the extent of hydrolysis on monoglyceride composition, 568

Conway, T. F., and Earle, F. R. Nuclear magnetic resonance for determining oil content of seeds, 265

Coleman, R. D., Gayle, L. A., and Alfin-Slater, Roslyn, B. A nutritional evaluation of acetostearins in rats, 737

Cook, J. W. Assay of insecticides and herbicides in fats and oils, 313

Cooper, R. S. Anionic phosphate surfactants, 642

Couch, J. R. See Isaacks, R. E.

Copenhaver, J. H. See Wurster, C. F., Jr.

Cousins, E. R. Hydrogenation of fats and oils. Isomerization during hydrogenation, 206

Cowan, J. C. See Dutton, H. J.
—— See Dent, R. H.
—— See Friedrich, J. P.
—— See Gast, L. E.
—— See Johnston, A. E.
—— See Kubie, W. L.
—— See Pryde, E. H.

Craig, B. M., Tulloch, A. P., and Murty, N. L. Quantitative analysis of short chain fatty acids using gas liquid chromatography, 61

Crutchfield, M. M., and Irani, R. R. Principles and utility of nuclear magnetic resonance in structure determination of surfactant chemicals, 691

D

Dallas, M. S. J. See Barrett, C. B.

Davies, R. E. See Isaacks, R. E.

Davis, G. A. See Linfield, W. M.

Day, E. A. See Keith, R. W.

Decossas, K. M., Molaison, L. J., Eaves, P. H., Pons, W. A., and Patton, E. L. Bleaching off-colored cottonseed oils with activated alumina: A preliminary cost study, 218

de Koning, A. J., and Silk, M. H. The 2-thiobarbituric reagent for determination of oxidative rancidity in fish oils, 165

Dent, R. H., Brand, B. G., Teeter, H. M., and Cowan, J. C. End-use evaluation of some copolymers and terpolymers of vinyl ethers linseed conjugated fatty alcohols, 713

DeVens, M. J. See Princen, L. H.

De Vries, B. Quantitative separations of higher fatty acid methyl esters by adsorption chromatography on silica impregnated with silver nitrate, 184

Dollahite, J. W. See El-Nockrashy, A. S.
—— See Lyman, C. M.

Dollear, F. G. See Fore, Sara P.

Driver, Margaret G., Koch, R. B., and Salwin, Harold. Letter to the editor re modified procedure for the determination of peroxide value of fats by the ferric thiocyanate method, 504

Dugan, L. R., Jr. See Kuchmak, M.

Dutton, H. J. Kinetics of linolenate hydrogenation, 35
—— See Johnston, A. E.
—— See Sreenivasan, B.
—— Scholfield, C. R., Jones, E. P., Pryde, E. H., and Cowan, J. C. Hydrazine-reduced linolenic acids as a source of C_9, C_{12}, and C_{15} dibasic acids, 175

E

Earle, F. R. See Conway, T. F.
—— See Mikolajczak, K. L.
—— See Miwa, T. K.

Eaves, P. H. See Decossas, K. M.

Eccles, E. J., Jr. See Weeks, L. E.

Eddy, C. Roland, Showell, John S., and Zell, T. E. Intramolecular effects of the fundamental hydroxyl stretching vibration in derivatives of fats and related compounds, 92

Edwards, H. M., Jr., and Marion, J. E. Letter to the editor re a simple method of calibrating a GLC column for quantitative fatty acid analysis, 299

Eisenhauer, R. A. See Black, L. T.
—— Beal, R. E., and Griffin, E. L. Cyclic fatty acid yields from linseed oil, 129

Eisner, Abner, Peristein, Theodore, and Ault, W. C. Methanesulfonic acid catalyzed additions to oleic acid and cyclohexene. III. Addition of acids and substituted phenols, 594

El-Nockrashy, A. S. See Lyman, C. M.
—— Lyman, C. M., and Dollahite, J. W. The acute oral toxicity of cottonseed pigment glands and intraglandular pigments, 14

Erwin, E. S., Sterner, W., and Marco, G. J. Effect of type of oil and site of administration on the fate of fatty acids in sheep, 344

F

Fett, Helen M. Separation and evaluation of components of lactylated emulsifiers, 81

Feuge, R. O., Willich, R. K., and Guice, W. A. Preparation of glycerides by controlled esterification, 260

Firestone, David. The determination of polymers in fats and oils, 247

Flanagan, P. W. See Greff, R. A., Jr.

Fore, Sara P., Ward, T. L., and Dollear, F. G. The preparation of lauryl alcohol and 6-hydroxycaproic acid from petroselinic acid, 30

Forest, C. A. See Gast, L. E.

Frampton, V. L. See Pons, W. A., Jr.

Friedrich, J. P., Palmer, J. C., Bell, E. W., and Cowan, J. C. Methods for improving yields of cyclic acid from linseed oil, 584

Fulco, Armand. See Kayama, Mitsu

Fullington, J. G. See Miller, W. R.

G

Gast, L. E., Schneider, Wilma J., Forest, C. A., and Cowan, J. C. Composition of methyl esters from heat-bodied linseed oils, 287

—— Schneider, Wilma J., Teeter, H. M., McManis, G. E., and Cowan, J. C. Reactions of unsaturated fatty alcohols. XV. Styrenation of fatty vinyl ether polymers in terpene solvents, 88

Gaulitz, E. J., Jr., and Lehman, L. W. The preparation of alkyl esters from highly unsaturated triglycerides, 197

Gayle, L. A. See Coleman, R. D.

Ginn, M. E. New physical evaluation techniques, 662

Goldblatt, L. A. See Applewhite, T. H.

—— and Lyon, C. K. Fat and oil products in urethane polymers, 157

Greff, R. A., Jr., and Flanagan, P. W. The characterization of nonionic surfactants by NMR, 118.

Gregory, R. L. See Pohle, W. D.

Griffin, E. L., Jr. See Eisenhauer, R. A.

—— See Sohns, V. E.

Gros, A. T. See Booth, A. N.

Guice, W. A. See Feuge, R. O.

Gupta, S. C. See Tenny, K. S.

Guzman, Alberto. See Arnold, L. K.

SUBJECTS

A

Acetostearins, nutritional evaluation, 737

Acetylenic acid, in *commandra pallida* and osyris seed oils, 342

Activated alumina bleaching, 218

Acyl groups, control of migration, 502

Additions, methylene sulfonic acid to oleic acid and cyclo hexene, addition of phenols, 594

Alcohol derivatives, use evaluation of in detergent formulations, 636

Alcohols, from petrochemical sources, their chemistry, 64

Alcoholyses, Vernonia anthelmintica seed oil, 136

Aldehyde oils, by ozonization of soybean oil, 497

Alkanesulfonates, long chain, structure and properties, 538

Alkyl aryl sulfonates, analysis by gas chromatography, 57

Alkylbenzenes, sulfonation, 5

Alkylene oxides, reactions with butyl and other alcohols, 590

Alkyl esters, from highly unsaturated triglycerides, 197

Alumina adsorbents, 10

Alyssum maritimum, composition, 294

Amide synthesis from castor based derivatives, 101

Amides, N,N-Bis(2-acyloxyethyl) of long chain fatty acids, 541

Amines, fatty acids, recent advances in, 640

—— fatty oxides, recent advances in, 628

Amino stearate, synthesis of methyl ester, 43

Ammonia, refining of oils, 279

Amphoteric detergent compounds, synthesis and properties, 114

Amylose, stearates, palmitates, etc., their caloric availability and digestibility, 551

Alyssum maritimum, composition, 294

Analysis, determination of cyclopropenoid fatty acids, 716

—— hydrogen bromide method, 718

—— surface-active agents by noninstrumental methods, 687

Antioxidants, analysis and evaluation by polarograph, 52

—— disappearance in breakfast cereals, 349

—— effects of *in vivo* feeding menhaden oil to swine, 357

—— feeding studies with swine, 360

Azelaoglycerides, errors in technique, 300

B

Baumann method, grading of Smalley series, (8) 13

Beef, brain and liver, lipid composition, 425

Biodegradability, foreign requirements and developments, 659

Biodegradation, the chemistry of in surfactants, 648

Biological structure, the lipids in the myelin sheath of nerve, 455

Bleaching, aluminn adsorbents, 10

—— of wool grease, 333

—— with activated alumina, 218

Brain phospholipids, 235

Breakfast cereals, disappearance of antioxidants, 349

Bromo and hydroxy derivatives of stearic acid, separation by thin layer chromatography, 138

Butterfat triglycerides, analysis by gas-liquid chromatography, 530

C

Caloric availability, new type fats, 551

Carbonyl compounds, 232

—— determination of, 121

Castor-based derivatives, amide synthesis, 101

Castor oil, detection in vegetable oils, 80

Catalytic hydrogenation, reactions involved, 720

Centrifugal method of refining, 703

Chelating, iron by polyphosphates, 283

Chemical modification of fats and oils, symposium, part I beginning on page 143

—— part II, beginning on page 199

Cholesterol, metabolism, effect of polyunsaturated fatty acids of cuttle fish and cottonseed oil, 336

Chromatographic analysis, butterfat triglycerides, 530

—— quaternary ammonium compounds, 25

Chromatography, acid treated florisil as an adsorbent, 413

—— adsorption of higher fatty acid methyl esters on silica impregnated with silver nitrate, 184

—— analysis of alkyl aryl sulfonates, 57

—— analysis of cit-trans isomers of fatty acids, 302

—— analysis of fatty acids, 61

—— analysis of insecticides and herbicides, 313

—— analysis of 1-olefins by temperature programming, 347

—— calibration of column, 299

—— determination of cyclic fatty acids, 272

—— determination of neutral oil in soybean oil; comparison with refining loss, 535

—— determination of Vitamins E and K, 353

—— identification of peaks, 309

—— lipid extraction procedures for, 545

—— liquid-liquid column partition separation of triglycerides, 575

—— thin layer separation of triglycerides on silica impregnated with silver nitrate, 580

—— preparation of fatty acids by liquid-liquid partition, 189

—— separation of methyl esters using cation exchange resin with silver ion, 513

—— special methods of purifying fatty acids, 419

—— structural correlation of unsaturated fatty acid esters, 558

—— separation factors, unsaturated fatty acid esters, 564

—— thin layer, 235

—— thin layer separation of bromo and hydroxy derivatives of stearic acid, 138

Citrus sinensis, seed oils from, 746

Cleaning curves, analysis of by kinetic methods, 517

Coatings, linseed oil emulsifiers, 105

Commandra pallida, acetylenic acid content, 342

Conjoined crystals, applications, 730

—— composition and physical properties, 725

Cottonseed, isolation of gossyverdurin, 571

Cottonseed oil, bleaching off-colored oil, 218

Cottonseed oil fatty acids, effect on metabolism of cholesterol, 336

Cottonseed pigment glands, toxicity, 14

Counter-current distribution, fractionation of lipids, 395

Crambe abyssinica, utilization of, 1, 142

Crambe abyssinica seed oil, fatty acids and alcohols from, 742

Crystallization of fats, method for studying, 707

Cuttle fish liver oil fatty acids, effect on metabolism of cholesterol, 336

Cyclic acid, improvement of yields from linseed oil, 584

Cyclic fatty acids, determination by gas-liquid chromatography, 268

Cyclohexane, epoxy resins, 229

Cyclopropenoid fatty acid derivatives, with hydrogen halides, 69

D

Deep fat frying, methods of determining polymerization, 711

Deglycerination, of monoglycerides, 606

Dehydroxy oleic acid, 225

Deodorizer, laboratory type, 223

Detergency, correlation with physiochemical factors, 674

—— kinetic studies, analysis of cleaning curves, 517

—— kinetic studies, effect of age, temperature and cleaning time on soil removal, 523

—— nonionic, physical chemistry of, 680

Detergent, a definition, 212

—— correlation, 96

—— removal of fatty soils from cotton, 290

Detergent formulations, use evaluation of alcohol derivatives in, 636

Detergents, amphoteric, synthesis and properties, 114

—— anionic, biodegradation, laboratory test, 78

—— characterization of non-ionic types, 118

—— fluorescent agents for, 695

—— foaming properties, 55

—— phosphate builders for, 624

—— tableting of, 621

—— their effect on surface and ground water problems, 656

Detergent synergism, 17

Detergent tablets, evaluation and formulation of, 699

Dibasic acids, from linolenic using hydrazine, 175

Dienes, separation and identification, 45

Digestibility, new type fats, 551

Docosahexaenoic acid, incorporation of linolenic-1-C^{14} acid into, 499

Docosahexanoic acid, obtaining, 40

E

Eicosapentaenoic acid, incorporation of linolenic-1-C^{14} acid into, 499
Eicosenic acid, in three new oilseeds, 294
Emulsifiers, from linseed oil, 105
Epoxycyclohexane, epoxy resins, 229
Epoxyoleic acid, 225
—— conversion to + *threo* 12, 13 dihydroxyoleic acid, 587
Epoxy derivatives, 718
Epoxy resins, from cyclohexane and epoxy cyclohexane, 229
Erucic acid, source and conversion, 1
Esterification, controlled, 260
Ethers, polyoxyethylene of glycosides and their fatty esters, 76
Evaluation, physical, new techniques, 662

F

Fats, crystallization method, 707
Fats and oils, chemical modification of, symposium, part I, beginning on page 143
—— part II, beginning on page 199
—— methodology of, symposium, part I, beginning on page 237
—— part II, beginning on page 302
Fatty acids, analysis by gas liquid chromatography, 61
—— analysis of cis-trans isomers by GLC, 302
—— aqueous hydrochloric acid, 716
—— calibration of GLC column, 299
—— chemical and biological assay, 237
—— *cis-trans* isomerization with selenium or nitrous oxide, 553
—— consequences of feeding p.u. types to antioxidant-deficient animals, 368
—— (cyclic), yields from linseed oil, 129
—— determination of cyclic type by gas-liquid chromatography, 268
—— distribution in lard, 296
—— hydrogen bromide method for determination of, 718
—— influence of with environmental temperature on the fatty acid composition of teleost fish, 507
—— in sheep, effect of type of oil and site of administration, 344
—— long chain amides as plasticizers, 541
—— manufacture of soaps from, 615
—— of crambe abyssinica and lunaria annua oils, 742
—— ozonization, 161
—— preparation by liquid-liquid partition chromatography, 189
—— special methods of purification, 419
—— structural correlation of unsaturated fatty acid esters, 558
—— separation factors in the G.L.C. of unsaturated fatty acid esters, 564
Fatty acid derivatives, cyclopropenoid with hydrogen halides, 69
Fatty acids of lard, identification by gas-liquid chromatography, 83
—— identification by silicic acid and gas-liquid chromatography, 86
Fatty alcohols, of crambe abyssinica and lunaria annua oils, 742
—— styrenation of vinyl ether polymers, 88
Fatty amines, oxides, recent advances in, 628, 640
Fatty esters and polyolglycosides, polyoxyethylene esters from, 76
Fatty materials, phosphorylation, 41
Fatty soils, removal from cotton in aqueous detergent systems, 290
Fish, fatty acid composition as influenced by dietary fatty acids and environmental temperature, 507
Fish oil, incorporation of linolenic-1-C^{14} acid into, 499
—— structure of fatty acids by nuclear magnetic resonance, 124
Flavor reversion, carbonyl compounds, 232
Flax oil, lipid changes on maturing, 108
Fluorescent agents, for detergents, 695
Florisil, adsorbent in column chromatography, 413
Foaming, non-ionic detergents, 66
Frying fats, method of polymerization determination, 711

G

Gas chromatography, marine oils, 744
Gas liquid chromatography, lard fatty acids, 83
Glyceride, distribution, 211
—— distribution of fatty acids in lard, 296
Glyceride structure, 242
—— molecular dynamics, 256
Glycerides, preparation of by controlled esterification, 260
—— synthetic, preparation of, 276
—— synthetic preparation and properties, 502
Glycerol, miscibility with fatty acids and glycerides, 142
Glyceryl lactated fatty acids, 81
Glycidyl esters, hydration of, 193
Glycosides, polyol type, fatty esters, and polyoxyethylene ethers, 76
Gossypol, isolation from liver, 60
Gossyverdurin, a new pigment from cottonseed, 571

H

Halogenation of fats and oils, 199
Herbicides, analysis of, 313
Hydration, glycidyl esters, 193
Hydrazine reduction of linolenic acid, 175
Hydrogen bonding, rotational isomerism differentiation of 1,2 and 1,3 diglycerides, 329
Hydrogen halides, fatty acid derivatives from, 69
Hydrogen peroxide, oxidation of tertiary amines, 268
Hydrogenation, isomerization, 206
—— kinetics (linolenate), 35
—— of linolenate, effect of catalyst concentration and temperature, 285
—— of linolenate, separation of isomers, 45
—— reactions involved, 720
Hydrolysis, natural fats by pancreatic enzymes; the influence on monoglyceride composition, 568
Hydrophobic compounds, sulfonation reaction, 179
Hydroxyl, stretching vibration, 92
6-Hydroxycaproic acid from petroselenic acid, 30
Hydroxystearic acid, 22

I

Insecticides, analysis of, 313
Intramolecular effects on hydroxyl value and fat derivatives, 92
In vivo antioxidants and polyunsaturated acid metabolism, symposium, beginning on page 353
Ironweed seed, composition, 225
Isomerization, during hydrogenation, 206
—— to *cis-trans* fatty acids with selenium or nitric acid, 553

K

Kettle wax, 20
Kinetic studies, of detergency, age, temperature and cleaning time on soil removal, 523
—— analysis of cleaning curves, 517

L

Laboratory test, biodegradation of anionic detergents, 78
Lactic acid, determination in mono-glycerides and shortening, 549
Lactylated emulsifiers, 81
Lard, composition of, 296
—— fatty acids, gas liquid chromatography, 83, 86
Lauryl alcohol, preparation from petroselenic acid, 30
Lecithin, a method for structural analysis, 70
Linoleic acid, cost of producing from safflower oil, 169
Linolenate, effect of catalyst concentration and pressure on hydrogenation, 285
—— hydrogenation and separation of isomers, 45
—— kinetics of hydrogenation, 35
Linolenic acid, reduction with hydrazine, 175
Linseed alcohols, vinyl ethers of, 713
Linseed oil, composition of methyl esters from heat-bodied products, 287
—— cyclic fatty acid yields, 129
—— emulsifiers and coatings, 105
—— improvement of yields of cyclic acid, 584
—— lipid changes in maturing of flax, 108
Lipid mixtures, fractionation, 425
Lipids, formation of compounds with proteins, 339
—— fractionation, 395
—— fractionation of complex mixtures, 425
—— in myelin sheath of nerve, 455
Literature review, annual report, 1963, part I, 372
—— part II, 472
Liver, isolation of gossypol, 60
Lunaria annua seed oil, fatty acids and alcohols from, 742

M

Marine oils, identification of major acids by GLC, 744
—— nutritive value, effect of *in vivo* antioxidants in feeding studies, 357
Marshallia caespetosa, composition, 294
Methane sulfonic acid, catalyzed additions to oleic acid, cyclo hexane, 594
Methodology of fats and oils, symposium, part I, beginning on page 237
—— part II, beginning on page 302
Methyl azelaaldehydate, purification by bisulfite compound, 723
Methyl epoxyoleate, isolation from vernonia anthelmintica seed oil, 136
Methyl esters, adsorption on silica impregnated with silver nitrate, separation of higher molecular weight acids, 184
—— composition of, from heat-bodied linseed oils, 287
—— separation by column chromatography with exchange resin and silver ion, 513
Molecular dynamics, glyceride structure, 256
Monoenes, separation and identification, 45
Monoglycerides, continuous deglycerination, 606

N

Near infra red spectroscopy, determination of rotational isomerism and differentiation of diglycerides, 329
Nitration, methyl oleate with acetyl nitrate, 43
Nonionic detergents, foaming properties, 66
—— from glycoside polyethers, 76
—— physical chemistry of, 680
Nonionic surfactants, characterization, 118
Nuclear magnetic resonance, oil content of seeds, 265
—— principles and utility of in structure determination of surfactant chemicals, 691
—— structure of unsaturated fatty acids, 124
Nutrition, evaluation of acetostearins, 737
Nutritional qualities of oils, the effect of processing conditions, 55

O

Octadecadienoic acid, preparation of 9-trans and 12 trans, 505
Oil content of seeds, determination by nuclear magnetic resonance, 265
Olefins, alpha, in the surfactant industry, 631
—— phosphorylation reaction, 41
9-10 Oleic acid, synthesis of tritium labeled, 172
Oayris alba, acetylenic acid content, 342
Oxidative rancidity, fish oils, 2-thiobarbituric reagent, 165
Oxidized lipids and protein, formation of complexes, 339
Oxidizing fats, determination of monocarbonyl compounds, 121
Oxygen bomb, method for stability, 603
Ozone, reactions, 161
Ozonization, of soybean oil, 497

P

Pancreatic, hydrolysis of natural fats, 568
Parsley seed oil, constituents, 28
Peroxide value, modified ferric thiocyanate procedure, 504
Petrochemicals, the chemistry of "alfol" chemicals, 64
Petroselenic acid, its derivatives, properties, synthetic preparation, 319

—— parsley seed oil, 28
—— preparation of 6-hydroxycaproic acid and lauryl alcohol from, 30
Phosphate, anionic, surfactants, 642
Phosphate builders, for detergents, 624
Phospholipids, pork muscle tissue, 734
—— thin layer chromatography, 235
Phosphorylation of olefins, 41
Physical evaluation, new techniques, 662
Plasticizers, amides of long-chain fatty acids, 541
Polarographic analysis and evaluation of antioxidants, 52
Polymerization, methods of determination, 711
Polymers, of vinyl ethers, 713
—— their determination in fast and oils, 247
—— urethane, 157
Polyphosphates, sequestration of iron, 283
Pork muscle tissue, pospholipids of, 734
Preparation of synthetic glycerides, 276
Processing conditions, effect on nutritional qualities of vegetable oils, 55
Proteins, formation of complexes with oxidized lipids, 339

Q

Quaternary ammonium compounds, analysis, 25

R

Redeposition, soil, 669
Refining, comparison of neutral oil loss with refining loss, 535
—— laboratory centrifugal method, 703
—— using gaseous ammonia, 279
Red oil, 22

S

Safflower oil, cost of producing linoleic acid from, 169
—— lipid changes as plant matures, 108
Saponification, review of processes, 609
Saponification techniques, continuous, 618
Sea anemone, lipid composition, 425
Seed fats, containing petroselenic acid, 319
Selenia grandis, composition, 294
Selenium, as related to vitamin E in metabolic effect, 365
Sequestration, of iron by polyphosphates, 283
Sheep, effect of type of oil and site of administration on fate of fatty acids, 344
Short course, 1962, lecture, 35
—— 1963, lectures, 609-698
Soap, analysis with hydrogen bromide and acetic acid, 274
—— manufactured from fatty acids, 615
Sodium palmitate, 20
Soil redeposition, 669
Solubility, triglycerides in ethanol, 33
Soybean oil, characterization of carbonyl compounds, 232
—— partial ozonization, 497
Special methods in lipid chemistry, symposium, 395
Spectrophotometry, the determination of Ng, K and Na ion using the flame type, 515
Stability, rapid oxygen bomb method, 603
Stearic acid, thin layer chromatography of bromo and hydroxy derivatives, 138
Structural analysis, lecithin and triglycerides, 70
Structural information, long chain fatty materials, 400
Structure, fish oil fatty acids by magnetic nuclear resonance, 127
—— optical activity, 747
Sulfonated oils, determination of unsulfonated oils in, 257
Sulfonates, analysis by gas liquid chromatography, 57
Sulfonation, reactions, side reactions, hydrophobic compounds, 179
Surface-ective agents, recent advances in analysis by noninstrumental methods, 687
Surfactants, alpha-olefins, 631
—— analysis for Mg, Na and K ions by flame spectrophotometry, 515
—— anionic phosphate, 642
—— the chemistry of biodegradation, 648
Surfactant chemicals, principles and utility of nuclear magnetic resonance in structure determination of, 691
Suspensions, high melting triglycerides, 186
Swine, feeding studies, antioxidants, 360
—— feeding studies, 360
Synthesis, tritium labeled 9-10 oleic acid, 172

T

Tableting, of detergents, 621
Tablets, detergents, evaluation and formulation of, 699
Tertiary amines, oxidation with hydrogen peroxide, 268
2-Thiobarbituric acid, reagent for oxidative rancidity, 165
Titanium oxide, reactivity with zinc oxide in the presence of dispersing agents, 131
Triglycerides, a method for structural analysis, 70
—— preparation of alkyl esters from, 197
—— separation by liquid-liquid partition chromatography, 575
—— separation by thin layer chromatography on silica impregnated with silver nitrate, 580
—— solubility in ethanol, 33
—— suspensions of high melting type., 186
Tritium labelled 9,10 oleic acid synthesis, 172
Tuna fatty acids, composition, 213, 215

U

Unsulfonated oils, determination of, 257
Urea and thiourea adducts, long chain fatty materials, 400
Urethane polymers, from fat and oil products, 157

V

Vegetable oils, the effect on nutritional quality by processing conditions, 55
—— growth stimulating effects of high levels of, 747
Vernonia anthelmintica, composition, 225
—— enzyme studies, conversion of epoxyoleic acid to + *threo* 12, 13 dehydroxy oleic acid, 587
—— seed oil, 136
Vinyl ethers, polymers of, 713
—— styrenation, 88
Vinyl monomers from fats and oils, 143
Vitamins, determination of vitamins E and K by gas-liquid chromatography, 353
—— effect of feeding poly-unsaturated fatty acids to antioxidant-deficient animals, 368
—— metabolic effect of selenium on vitamin E, 365

W

Water, the effect of detergents on surface and ground water problems, 656
Water pollution, the nation's problem, 645
Weibull-Nycander equations, 590
Wool grease, bleaching, 333

X

X-ray diffraction, studies on long chain fatty material, 400

Z

Zinc oxide, reactivity with titanium oxide in presence of dispersing agents, 131

COMMITTEES

Bleaching Methods Sub-Committee, 1963 report, (1) 12

Commercial Fats and Oils Analysis Committee, report, 1963, 596

Governing Board, 1962 report, (6) 6

Governing Board Committee report, two meetings per year vs one, (3) 7

Industrial Oils and Derivatives, 1963 report of sub-committees, (2) 31
—— report of activities of, 1963, 605

Literature review, annual report, 1963, Part I, 372
—— Part II, 472

National Program and Planning Committee, 1963 report, (1) 9

Smalley, a new method of grading results, (8) 13
—— check sample program under way, (7) 26
—— report, 1962-63, 298

Spectroscopy Committee, 1961-62 report, (3) 14

Technical Safety and Engineering Committee, plan special program at Atlanta, (3) 44

Blaedel, W. J. Book Review—Standard Methods of Chemical Analysis, Vol. IIA and IIB, Industrial and Natural Products and Noninstrumental Methods, edited by Welcher, (10) 40

Bloch, H. S. Book Review—Advances in Petroleum Chemistry and Refining, Vol. VI, edited by McKetta, Jr., (10) 16

Bond Award, presented to C. C. Litchfield, (6) 14
—— presented to George Rouser, honorable mention awards to Nicolaides and Wheeler, (10) 37

Book Review, *Absorption Spectroscopy,* by Bauman, (8) 28
—— *Advances in Enzymology,* Vol. 24, edited by Nord, (10) 40
—— *Advances in Organic Chemistry: Methods and Results,* Vol. 3, edited by Raphael, Taylor, and Wynberg, (11) 34
—— *Advances in Petroleum Chemistry and Refining,* Vol. VI, edited by McKetta, Jr., (10) 16
—— *Advances in Spectroscopy,* Vol. II, edited by Thompson, (10) 16

—— *Alkyd Resin Technology*, by Patton, (4) 41
—— *Analyse Der Tenside*, by Hummel, (2) 35
—— *Animal Health and Production*, edited by Grunsell and Wright, (7) 32
—— *Autoxidation and Antioxidants*, Volume 2, edited by Lundberg, (7) 32
—— *Chemistry of Combustion Reactions*, by Minkoff and Tipper,' (11) 38
—— *Chromatographic Analysis, Discussion of the Faraday Society*, No. 7, 1949, (10) 28
—— *Comparative Nutrition of Man and Domestic Animals*—Vol. I. *The Nutrient Requirements of the Animal Body*, by Mitchell, (9) 52
—— *A Course of Mathematics for Engineers and Scientists*, by Plumpton and Chirgwin, (8) 28
—— *Design of Equilibrium Stage Processes*, by Smith, (10) 30
—— *Dunschict Chromatographie ein Laboratorium-Handbuch*, edited by Stahl, (10) 16
—— *Einfuhrung in die Lebensmittelchemie*, by Beythien and Heimann, (3) 23
—— *Elements of Infrared Technology*, by Kruse, McGlauchlin, and McQuistan, (8) 28
—— *Fat Rancidity, Summary Report from the Third Scandinavian Symposium*, (9) 52
—— *Fisk's Paint Year Book and A–Z Buyer's Guide*, by Fisk, (8) 47
—— *Gas Chromatography*, by Purnell, (10) 28
—— *Gas Chromatography*, by Ambrose and Ambrose, (4) 43
—— *Gas Chromatography Abstracts*, 1961, edited by Knapman and Scott, (4) 43
—— *The Handbook of Analytical Chemistry*, by Meites, (9) 48
—— *Hydrogen Compounds of the Group IV Elements*, by Stone, (3) 23
—— *Introduction to Polymer Chemistry*, by Stille, (8) 35
—— *Lectures on Gas Chromatography*, by Szymanski, (5) 38
—— *Les Methodes Analytiques des Lipides Simples*, by Paquot, Mercier, Mathieu, Lefort, and Perron, (8) 28
—— *Liquid Extraction*, 2nd Edition, by Treybal, (11) 38
—— *Macromolecular Chemistry*, by the International Union of Pure and Applied Chemistry, (5) 38
—— *A Manual of Cosmetic Analysis*, by Newberger, (2) 36
—— *Mechanisms of Sulfur Reactions*, by Pryor, (9) 48
—— *Nomography and Empirical Equations*, by Davies, (5) 38
—— *Optics of Flames, Including Methods for the Study of Refractive Index Fields in Combustion and Aerodynamics*, by Weinberg, (10) 28
—— *Organic Synthesis*, Collective Vol. IV, edited by Rabjohn, (11) 38
—— *Particle Size: Measurement Interpretation and Application*, by Irani, (11) 34
—— *Physical Adsorption of Gases*, by Young and Crowell, (11) 34
—— *Polyhydric Alcohols*, by Mellan, (4) 41
—— *The Professional Scientist*, by Strauss and Rainwater, (6) 43
—— *Progress in Polarography*, Vol. I, edited by Zuman and Kolthoff, (10) 30
Vol. II, edited by Zuman and Kolthoff, (10) 34
—— *Progress in Stereochemistry*, Volume 3, edited by de la Mare and Klyne, (7) 32
—— *Quantitative Organic Analysis via Functional Groups*, 3rd Edition, by Siggia, (9) 48
—— *Radiation Chemistry of Polymeric Systems*, by Chapiro, (3) 23
—— *Reagent Chemicals and Standards*, Fourth Edition, by J. Rosin, (8) 28
—— *Riegel's Industrial Chemistry*, by Kent, (2) 35
—— *Standard Methods of Chemical Analysis*, Vol. IIA and IIB, Industrial and Natural Products and Noninstrumental Methods, edited by Welcher, (10) 40
—— *Stereochemistry of Carbon Compounds*, by Eliel, (4) 41
—— *Surface Chemistry: Theory and Industrial Applications*, by Osipow, (9) 56
—— *Thin Film Chromatography*, by Truter, (11) 38
—— *Wood Chemistry, Proceedings of the Wood Chemistry Symposium*, 1961, (10) 28
